

# NANTUCKET BUILDERS ASSOCIATION

Presents a Continuing Education Course for *all* Construction Supervisors Licensees

## Building for High Wind Resistance in Light Frame Wood Construction

Wednesday, April 9, 2014; 6:30-8:30pm

**Presented by:**

Martin R. Donoghue, PE, LEED AP BD&C  
Senior Project Manager  
Coastal Engineering Company, Inc.

**Where:**

The Faregrounds Restaurant  
27 Fairgrounds Road; Nantucket, MA

**Description:** In this course participants will learn about the latest APA considerations for residential building construction in hurricane wind prone regions. Recommendations for construction materials, engineering design considerations and techniques for residential construction in high wind prone areas will be discussed. Field practice and procedures will be used to study technological characteristics along with proper use, selection, specifications, strength and limitations, wind load resistance, and code conformity.

Also included in the presentation will be empirical engineering data, material properties, and other physical factors that affect design consideration that govern the application of materials in construction.

This course has been approved by the Massachusetts Board of Building Regulations and Standards for 2 hours for Continuing Construction Supervisors Education covering:

**2 Hours of Building Code**

*Anyone can attend this meeting free of charge.*

There is a \$25.00 fee for members of the Nantucket Builders Association and \$50.00 for non-members who wish to obtain CEU credits.

**Seating is limited. Pre-registration is required.**

Please pre-register at: [www.nantucketbuildersassociation.org](http://www.nantucketbuildersassociation.org)
